

CONFIDENTIAL · FOR AUTHORIZED POST-GAME REVIEW

FRACTURED ORDER
POST-GAME ANALYSIS REPORT

June Demo

A structured reconstruction of session activity, decisions, communications, and data-integrity evidence prepared for post-session review.

SESSION ID	GENERATED UTC

SESSION DESCRIPTION

Session for the demo of the platform conducted 06/03/2026 at
ISC 3366

Table Of Contents

The report is organized into 13 numbered sections. Each begins on a new page so findings can be referenced and printed independently.

1. Executive Summary	Narrative overview of session scale with headline indicators and per-team activity.
2. Session Snapshot	Session identity, runtime state, declared configuration, and archive-level metrics.
3. Participants And Seat Activity	De-identified participant roster, seat timing, and derived engagement metrics.
4. Event Log Chronology	Ordered event stream with actor, entity, move, state change, and payload summary.
5. State Transition Ledger	Lifecycle transitions reconstructed for actions, proposals, responses, and RFIs.
6. Draft And Submission History	Draft revision path, wizard progress, and time-to-submit evidence.
7. Actions And Adjudications	Detailed Blue-team action records paired with White Cell rulings and effects.
8. Proposals: Content And Review	Green-team proposal records, routing intent, review rationale, and recipient outcomes.
9. Move Responses	Red-team move-response records, posture, rationale, and submitted detail.
10. Requests For Information	Question-and-answer exchanges between team facilitators and White Cell.
11. Communications And Interaction Summary	Cross-team communication flows, response latency, and interaction counts.
12. Notes And Observation Capture	Structured note summary plus optional appendix of note content.
13. Data Quality And Export Integrity	Observed disconnects/gaps and the integrity fields used to verify the export.

SECTION 01

Executive Summary

A narrative overview of session scale and the headline indicators that frame the detailed evidence in the sections that follow.

This post-game analysis reconstructs June Demo, captured in Research mode. The session spans 285h 38m 55s across 2 move(s), with 12 active participant seat(s) generating 49 logged events. Teams submitted 1 action(s) (1 adjudicated) and 0 proposal(s) (0 forwarded), and raised 2 request(s) for information.
